At Ken-Mac Metals we keep things simple

Stainless Steel Solutions for the Rail Car Industry

We provide stainless steel solutions tailored to the railcar industry. Our materials are engineered to perform in demanding environments, offering excellent corrosion resistance, strength, and long-term durability. With a wide range of grades, sizes, and finishes available, we help meet the specific requirements of tank cars, hopper cars, and structural components.

Backed by strong mill relationships and advanced processing capabilities, we ensure a reliable and consistent supply of high-quality materials. Our team is committed to responsive service, strict quality standards, and on-time delivery, helping railcar manufacturers and operators maintain efficiency, safety, and performance across their operations.

Stainless Steel Products

| | |
|--------------|--------------------------|
| 201 / 201LN | 2B |
| 301L / 301LN | #4 |
| 304 / 304L | Tempered |
| 316 / 316L | Other finishes available |
| Duplex | |
