

## At Ken-Mac Metals we keep things simple

### Stainless Steel Solutions for the Tank & Vessel Industry

From vineyard to pharmaceutical, stainless steel stands as the unparalleled choice for tank and vessel manufacturing. Renowned for its exceptional durability, corrosion resistance, and hygienic properties, stainless steel ensures tanks uphold the highest standards of quality and reliability. Its innate ability to withstand harsh environments, corrosive substances, and extreme temperatures makes it ideal for preserving the integrity of sensitive liquids and substances.

These qualities make stainless steel the trusted foundation for consistent, long-term performance in demanding processing environments. Its reliability, cleanliness, and strength continue to set the standard for tank and vessel manufacturers across every industry.

#### Stainless Steel Coil, Sheet & Plate

304 / 304L    316L    2205

Finishes:

2B    #3 / #4    #7 / #8    Bright Annealed

#### Aluminum

5454

AL-Bright
