

At Ken-Mac Metals we keep things simple

Your Supplier for the HVAC Industry

In the dynamic HVAC industry, Ken-Mac Metals stands out as a trusted supplier, offering a full range of metals to meet every need. From light gauge metals going into many types of HVAC fin, ductwork and ventilation systems including heavy gauge metals for fan blades, switches, panels and structural components, we provide the reliable foundation your heating and cooling professionals depend on. Our materials are designed to support precision, durability, and performance, helping teams stay efficient and productive from fabrication to installation.

With a commitment to quality and industry expertise, Ken-Mac Metals delivers materials that enhance performance and efficiency across residential, commercial, and industrial projects making us a dependable partner every step of the way.
